Poultry Stocks Available for Export by Breeders or their
Agents in the United States

The purpose of this publication is to provide information frequently requested from the U. S. Department of Agriculture regarding chicken and turkey stocks available to poultrymen in other countries. The listed stocks, with their identification and description, were compiled from information submitted by the breeders or their export agents.

The name and mailing address of the breeder or agent, strain or trade name of the stock, breeding, purpose and type of stock are shown.

The letter codes in the column for "Breeding" identify the varieties and type of breeding as follows:

Chicken Varieties

WR	- White Plymouth Rock	WL	- White Leghorn
DWC	- Dominant White Cornish	BR	- Barred Plymouth Rock
CG	- California Gray	DWML	- Dominant White Male Line
Del	- Delaware	NH	- New Hampshire
RIR	- Rhode Island Red	BA	- Black Australorp
WC	- White Cornish	Syn.	- Synthetic
DWR	- Dominant White Rock		

Turkey Varieties

BBB	- Broad Breasted Bronze	MW	- Medium White
BBW	- Broad Breasted White	BSW	- Beltsville Small White
LW	- Large White	SB	- Small Bronze
SW	- Small White	Wh.	- White

Type of Breeding

PS	- Pure Strain	IN	- Incross
BX	- Breed Cross	INX	- Incrossbred
SX	- Strain Cross	Syn.	- Synthetic
LX	- Line Cross		

The primary purpose of each chicken stock is identified by "E" for egg production or "M" for meat production.

The type of stock available, both chicken and turkey, is identified by:

- P - Production. Stock suitable for the production of meat or market eggs. Due to the breeding methods used in the development of this stock, it is generally unsuitable for breeding purposes.
- R - Reproduction. Purebred stock or strain which will reproduce itself as to color, type and general production qualities. Such stock can be perpetuated for several generations if the buyer exercises prudent selection principles.
- M - Multiplier. For use only as parent stock to produce production type stock.

Information in this publication was compiled by the Poultry Research Branch, Animal Husbandry Research Division, Agricultural Research Service. It should not be construed as implying approval or endorsement by the U. S. Department of Agriculture of any of the stocks listed.
